👤 PROFILE

I'm a Full Stack and SaaS Developer who builds complete web products from scratch, frontend to backend. I work primarily with JavaScript and TypeScript, using React and Next.js on the frontend and Node.js on the backend. I've shipped real SaaS tools with active users, integrated third-party APIs, and built performant, scalable applications end-to-end.

💼 PROFESSIONAL EXPERIENCE

Frontend Developer

Buzdealz Pvt Ltd

July 2025 – March 2026 | Internship

- Independently built the entire frontend of buzdealz.com 🔗 from the ground up.
- Architected the app using component-based design with clean state management and REST API integration.
- Improved site performance and cut load time by ~30% through targeted optimization techniques.

Full Stack Web Developer

Viarsh Technologies

March 2025 – July 2025 | Internship

- Built the complete CRM UI from scratch using React.
- Implemented pixel-perfect designs based on provided UI references.
- Integrated REST APIs for dynamic data rendering and real-time updates.

Full Stack Web Developer

Koshank pvt. ltd.

February 2025 – May 2025 | Internship

- Built an invoice generator tool for internal use.

🎓 EDUCATION

B.Tech in Computer Science and Engineering

Hi-Tech Institute of Technology

September 2021 – 2025 | Sambhajinagar, India

Full Stack Web Development

Internshala Trainings

August 2023 – March 2024

📁 PERSONAL PROJECTS

Grohubz - Instagram DM Automation Tool 🔗

December 2025 – Present

- Built and launched the entire application independently, delivering a production-ready SaaS with **100+ pages**, currently serving **150+ real users** and receiving **100+ daily organic visits**.
- Developed the frontend using **React.js** and **JavaScript**, while building the backend APIs and business logic with **Node.js**.
- Integrated **Meta (Instagram) APIs** to power real-time message handling, trigger processing, and automated workflow execution.
- Implemented **technical SEO** and an **AI-search-optimized architecture**, enabling the product to rank organically and be discoverable through search engines and AI-powered search platforms.

MERN Engineers 🔗

May 2025 – June 2025

- Built a pixel-perfect, responsive agency website using React and Framer Motion with smooth animations and clean UI.
